### TRANSNATIONAL PARTNER MEETING HELD IN GRAZ, AUSTRIA

September 2023

### >>> READ MORE

In September, partners gathered for TPM in Graz, Austria. During this meeting, we discussed "Result 1", which was a report titled "Nature of Willingness to Reduce Carbon Footprint," and shared updates on the progress of creating E-learning modules. Additionally, professors from the University of Graz presented their sustainability strategy, offering new ideas and aspects for other partners to consider in their sustainability endeavors.

Artsmart has initiated the development of online course titled "Organization's Low Carbon Expert." This course, designed to be both accessible and complimentary, targets a diverse audience including schools, higher education institutions, vocational schools, and various other educational entities throughout Europe. Its curriculum focuses on imparting essential knowledge and skills related to sustainability and achieving carbon neutrality.

### E-LEARNING DEVELOPMENT

Began in October 2023

Co-funded by  
the European Union
